Patents

Patents **1 - 10** on **communication class library with client and service application**. (**0.13** seconds)

Sort by relevance | Sort by date (new first) | Sort by date (old first)

Apparatus and method for providing decoupling of data exchange details for ...
US Pat. 5187787 - Filed Jul 27, 1989 - Teknekron Software Systems, Inc.
This **library** is linked with the **client application** accordance with that ...
This **service** discipline will be described typically one **communication** daemon per ...

Apparatus and method for creation of a user definable video displayed ...
US Pat. 5339392 - Filed Dec 28, 1990
Semantic information in **class** descrip- ning two **client** applications, each **client**
application tors basically means the names of the fields of the form, ...

Apparatus and method for providing decoupling of data exchange details for ...
US Pat. 5557798 - Filed Dec 21, 1990 - Tibco, Inc.
Thus, if a particular **application** needs to know information supplied by, for
example, the Dow Jones news **service**, the **client application** does not need to ...

Executable for requesting a linguistic **service**
US Pat. 6321372 - Filed Dec 23, 1998 - Xerox Corporation
15 During execution, **client** code executable 320 provides a request for ...
10, request abstract object 350 is a top-level **service class** that serves as an ...

Object-oriented system, method and article of manufacture for a **client** ...
US Pat. 5768510 - Filed Jul 1, 1996 - Sun Microsystems, Inc.
It's all embodied in the all **application** front ends are instances of a single
class of **communication library** components. So. the messages that programs. ...

Apparatus and method for providing decoupling of data exchange details for ...
US Pat. 5257369 - Filed Oct 22, 1990
Each **service** discipline encapsulates a predefined **communication** protocol which
... of an alternative embodiment of the invention to the **client** applications. ...

Summarized **application** profiling and quick network profiling
US Pat. 6381628 - Filed Nov 20, 1998 - Microsoft Corporation
More specifically, the services are available to **client** programs as **application**
programming interface (API) functions provided in the COM **library**, ...

Method for computer internet remote management of a telecommunication ...
US Pat. 6363421 - Filed May 31, 1998 - Lucent Technologies, Inc.
Each **service** object instance provides services for **client application** access,
... The SNMP protocol is used for **communication** between **service** objects ...

Apparatus and method for providing users with transparent integrated access ...
US Pat. 5596744 - Filed May 20, 1993 - Hughes Aircraft Company

The "send catalog" **service** sends the **client** a copy of the relation catalog. ...
interface to any **application** that requires the interprocess **communication**. ...

Test instrumentation I/O **communication** interface and method
US Pat. 6389491 - Filed Mar 23, 1999 - Agilent Technologies, Inc.
For example, if a **client** is to be notified on each occurrence of a **service** request
interrupt, it passes a **client**-implemented sink routine pointer to the ...

Patents

Patents **1 - 10** on **communication class library controlled client and service application**. (0.16 seconds)

Sort by relevance | Sort by date (new first) | Sort by date (old first)

Method and device for filtering events in an event notification **service**
US Pat. 6438618 - Filed Dec 16, 1998 - Intel Corporation
COM allows modular programming because it provides a **communication** mechanism ...
A **client** may be an **application** executing on a computer that may take some ...

Object oriented representation of network requests in a **client** server model
US Pat. 5938733 - Filed Mar 8, 1996 - International Business Machines Corporation
The **client** port is a **client communication** endpoint which is returned to the **client**
... is the minimum number of threads reserved to **service client** requests. ...

Computer network debit disk used for prepayment to transfer information from ...
US Pat. 5915093 - Filed Apr 24, 1997 - Howard Berlin
At step 84 computer 10, which functions as the **client**, establishes an Internet
client ... Net.h++," which is a C++ **class library** that simplifies Internet ...

Transaction dispatcher for a passenger entertainment system, method and ...
US Pat. 6813777 - Filed May 26, 1998 - Rockwell Collins
Each of these services are **controlled** utilities 425 and a graphical user ...
processor 470 into 35 cohesion between the **application (service)** and the device ...

Method and system for management of resource leases in an **application** ...
US Pat. 6950874 - Filed Dec 15, 2000 - International Business Machines Corporation
Each executable is linked with **application** runtime **library** 228, which handles all
... Preferably, the **client-class** framework running on each endpoint is a ...

System and method for mapping calls to functions in a first driver level ...
US Pat. 5627998 - Filed May 24, 1995 - National Instruments Corporation
The VISA Resource Manager includes the language, a resource **class** is ....
defined as a **communication** channel much the same way that a **client** uses resources, ...

Method and system for partitioned **service**-enablement gateway with utility ...
US Pat. 6871193 - Filed May 30, 2001 - Verizon Corporate Services Group
Bundles comprise software modules, **Application** Programmer Interfaces (APIs) and
... to interface with devices 34 **controlled** by a home automation system. ...

Method and system for **service**-enablement gateway and its **service** portal
US Pat. 6920615 - Filed May 30, 2001 - Verizon Corporate Services Group Inc.
For example, software may be used by gateway 30 to allow **communication** between the
... software from impacting device 34, **client** device 35 and user 36. ...

System and method for testing time-varying signals
US Pat. 6795791 - Filed Aug 28, 2001 - BEA Systems, Inc.
The monitor 506 is in **communication** with a notifier 508. ... example of a **class**

that can be called by an end user or another object or **application** in order ...

Method and system for managing data flow within a collaboration system using ...
US Pat. 6035337 - Filed May 30, 1997 - International Business Machines Corp.
2A, an instantaneous state of a multi-user collaborative **application** system, ...
resource manager or **library service** for the resource objects thus stored. ...

Patents

Patents **1 - 6** on **class or code library controlled client and service application**. **(0.12** seconds)

Sort by relevance | Sort by date (new first) | Sort by date (old first)

Development system for automatically enabling a
server **application** to ...
US Pat. 6272675 - Filed Oct 1, 1998 - Unisys Corporation
The average user developing a **client application** does not have this knowledge.
... requested enterprise **service** via a gateway server dynamic link **library** ...

Customizable **application** project generation process and system
US Pat. 5754858 - Filed May 1, 1996 - Microsoft Corporation
Such a **library** can be custom **application** project generator 52 to use these tern-
... the customizer tool 64 gen- 60 on a local **client**/server network, ...

Advanced equipment control system
US Pat. 5546301 - Filed Jul 19, 1994 - Honeywell Inc.
The entity used by CADT to represent an **application** is referred to as a ...
control devices associated with a system to be **controlled** via an object lattice ...

Computer network debit disk used for prepayment to transfer information from ...
US Pat. 5915093 - Filed Apr 24, 1997 - Howard Berlin
At step 84 computer 10, which functions as the **client**, establishes an Internet
client ... Net.h++," which is a C++ **class library** that simplifies Internet ...

Method and system for managing data flow within a collaboration system using ...
US Pat. 6035337 - Filed May 30, 1997 - International Business Machines Corp.
2A, an instantaneous state of a multi-user collaborative **application** system, ...
resource manager or **library service** for the resource objects thus stored. ...

Method and system for using machine translation with content language ...
US Pat. 6415249 - Filed Mar 1, 2000 - International Business Machines Corporation
15 Software program **code** which employs the present invention is typically ...
HTTP is the communication protocol between the server and the browser **client**. ...

Patents

Patents **1 - 10** on **communication class or code library**. (0.18 seconds)

Sort by relevance | Sort by date (new first) | Sort by date (old first)

Object-oriented interprocess **communication** system interface for a procedural ...
US Pat. 5404529 - Filed Jul 19, 1993 - Taligent, Inc.
When executing copies computer program logic from the **code library** on the computer
... conventions of the particular compiler which the **class library** 402. ...

Wrapper system for interfacing an object-oriented application to a ...
US Pat. 5475845 - Filed Sep 28, 1994 - Taligent, Inc.
The apparatus of claim 1, wherein the **code library** 30 includes hardware means for
... an interprocess **communication class** having member functions which ...

System, method and article of manufacture for a mobile **communication** network ...
US Pat. 6199099 - Filed Mar 5, 1999 - AC Properties B.V.
With a **class library**, the **code** the programmer instantiates objects and calls
their member functions. It's possible to instantiate and call objects in the ...

System, method and article of manufacture for mobile **communication** utilizing ...
US Pat. 6356905 - Filed Mar 5, 1999 - Accenture LLP
In a complex system, the **class** hierarchies for related classes can become ...
With a **class library**, the **code** the programmer instantiates objects and calls ...

Application and **communication** platform for connectivity based services
US Pat. 6496575 - Filed Jun 7, 1999 - Gatespace AB
One feature of each single **class library** 95 within the **class** libraries 95 is that
each ... In sum, the **class** 10 libraries 95 are essentially **code** archives ...

System and method for efficient relational query generation and tuple-to ...
US Pat. 5829006 - Filed Jun 6, 1995 - International Business Machines Corporation
The relational queries 410 generated by the query gen- 5 the **code library** 114,
when executed, enable the computer **class** Z). The gateway 106, the schema ...

Object-oriented multitasking system
US Pat. 5519867 - Filed Jul 19, 1993 - Taligent, Inc.
The **code library** includes computer program logic implementing an object- oriented
... 7-9 are **class** diagrams of interprocess **communication** classes of the ...

Object-oriented interface for a procedural operating system
US Pat. 5379432 - Filed Jul 19, 1993 - Taligent, Inc.
A **code library** is stored in the memory 55 component. The **code library** includes
... 7-9 are **class** diagrams of interprocess **communication** classes of the ...

Method and system for transparently executing **code** using a surrogate process ...
US Pat. 5802367 - Filed Jan 16, 1996 - Microsoft Corporation
Inheritance refers to me ability to declare able module called a **library**. ...

Objects are typically implemented by server **code** derived **class** A dass that ...

<u>Wrapper for enabling an object otented application to maintain virtual ...</u>
US Pat. 5473777 - Filed Jul 19, 1993
A **code library** is stored, in the memory component. The **code library** 50 includes
... 7-9 are **class** diagrams of interprocess **communication** classes of the ...

Patents

Patents **1 - 10** on **application or program generated a service request.** (0.05 seconds)

Sort by relevance | Sort by date (new first) | Sort by date (old first)

Client-based **application** availability and response monitoring and reporting ...
US Pat. 6070190 - Filed May 11, 1998 - International Business Machines Corporation
27 able and wherein the **generated** transaction record includes an ... of the
application program; means for sending a **service request** from the client ...

Client-based **application** availability
US Pat. 6321263 - Filed May 11, 1998 - International Business Machines Corporation
In an embodiment of the invention the **service request** is a **request** to ... for a
generated transaction record includes whether the **application program** ...

Method, system and **program** product for establishing a data reporting and ...
US Pat. 6175832 - Filed May 11, 1998 - International Business Machines Corporation
As previously noted the target server 202 and **application program** 203 are included
... In either case, whether the **service request** produces a successful or ...

Interactive display system for sequential retrieval and display of a ...
US Pat. 6141699 - Filed May 11, 1998 - International Business Machines Corporation
50 In an embodiment of the invention the **service request** is a **request** to ...
for a **generated** transaction record includes whether the **application program** ...

Service contract for managing **service** systems
US Pat. 6148290 - Filed Sep 4, 1998 - International Business Machines Corporation
This business **service program** 400 is executed in a business **service** engine 402.
... When receiving a **request** or response from the **service application** 500, ...

Method and apparatus for generating computer-controlled interactive voice ...
US Pat. 4785408 - Filed Mar 11, 1985 - AT&T Information Systems Inc. American Telephone and Telegraph Company
1 shows a block diagram of one embodiment of **application program** then ... 106 and
the other gram 108 can been seen in tracing a **service request** equipment ...

Client-side parallel requests for network services using group name association
US Pat. 6012090 - Filed Mar 14, 1997 - AT&T Corp.
The **service request** is **generated** by a web browser or other **program** run by processor
20 in an **application** layer of the client 12, and is responded to by a ...

Broadband intelligent telecommunications network and method providing ...
US Pat. 5600643 - Filed Sep 23, 1993 - Bell Communications Research, Inc.
The broadband intelligent network of claim 1 wherein a **service request** ...
of the **service** creation **program** module compatible with an **application program** ...

High speed raster image processor particularly suited for use in an image ...
US Pat. 5113494 - Filed Nov 9, 1990 - Eastman Kodak Company

In particular, in response to the **service request generated** by the **application program**, the processor 60 situated in the file server sets various fields ...

Multi-protocol interface apparatus at a **service** control point
US Pat. 6122363 - Filed Jul 24, 1998 - MCI Communications Corp.
The method of claim 19 wherein the step of processing 55 in said first **service application** comprises the step of processing said **request** message in said ...
